VISION STATEMENT: Empowering Shelby County's job seekers by equipping them with practical tools they can apply while navigating the interviewing process.

THE NEED: There is a demonstrated need in Shelby County for educating job seekers on appropriate interviewing attire and etiquette.

THE GOAL: Our goal with Inspiring Attire is to provide these individuals with some practical resources they can immediately apply to their job-seeking endeavors.

THE PLAN: Our plan is to partner with local businesses and individuals to secure new and gently used interviewing outfits which will then be offered to job seekers at the Job Fair held annually at Shelbyville High School. Inspiring Attire will coordinate a booth at which these outfits will be available along with individuals who can provide on-site, job seeking guidance and a packet of information which will include resume building techniques and interviewing tips.

THE OUTCOME: Our hope is that this practical approach will result in individuals who feel immediately more confident in their ability to successfully land a job.
